

WaterMark

Certificate No.: 23448
AS/NZS 3497:1998

5 YEARS WARRANTY

Components are Tested and Certified by NSF International under NSF/ANSI Standard 42 for material requirements only.

SPECIFICATIONS

Operating Pressure: 240-600 kPa
Operating Temperature: 5-35°C
Connects To: 1/2" Cold Water Line
Membrane Flow Rate: 16 L/h
System Outflow Rate: 3 LPM

Our reverse osmosis systems produce alkaline and mineralised drinking water (Bottled-like Water).

AquaCo Reverse Osmosis System

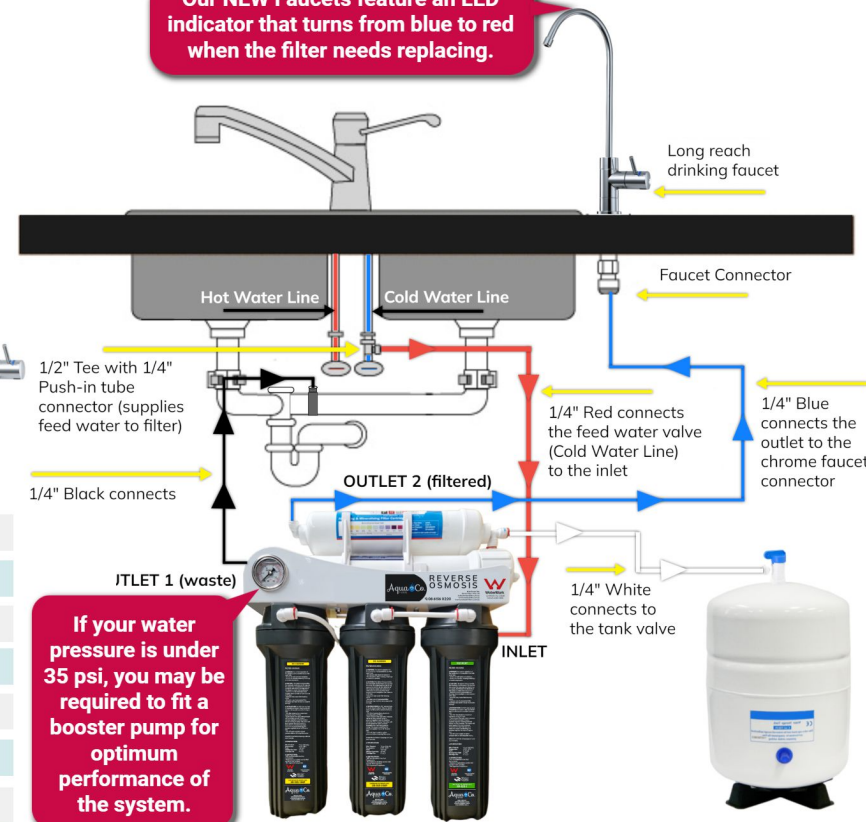

\$799

USA Reverse Osmosis System

\$950

Our NEW Faucets feature an LED indicator that turns from blue to red when the filter needs replacing.

If your water pressure is under 35 psi, you may be required to fit a booster pump for optimum performance of the system.

If you do not want a separate drinking faucet, you can upgrade your kitchen faucet and get a 3 Way Chrome Mixer Tap for \$315*.

Reduction Claim

Sediments, Sand, Silt & Dirt	✓	✓
Total Chlorine (FC, CC, TC)	✓	✓
Pesticides & Herbicides	✓	✓
Volatile Organic Compounds	✓	✓
Taste, Odours & Colour	✓	✓
Heavy Metals (Copper, Arsenic, Mercury, Lead...)	✓	✓
Parasites, Bacteria & Viruses	✓	✓
Fluorides	✓	✓
Nitrates, Antibiotics	✓	✓
BPA & PFAs (Forever Chemicals)	✓	✓
Silica & Hardness	✓	✓

Our systems are installed under your existing kitchen bench and are supplied with a chrome faucet for your filtered drinking water and a 12 L Reverse Osmosis Tank, which holds up to 9 Litres.
12 L Tank Dimensions: 244 D x 366 H mm

430 H x 360 W x 200 D mm

430 H x 360 W x 200 D mm

If a higher capacity is required, you can upgrade your 12 L Tank to a 18 L Tank for only \$50.
18 L Tank Dimensions: 279 D x 368 H mm
(The 18 L Tank holds up to 13 Litres)

The tank fills up with water coming from the membrane at a flow rate of 16 L/h* dependant on water pressure. This tank allows you to have up to 150 litres of water instantly* dependant on tank capacity.

If height is an issue, the system and tank can go laying down.

- USA: QMP Housings Made in the USA, Dupont Filmtec Membrane Made in the USA, John Guest Fittings Made in the UK, and Omnipure Filter Cartridges Made in the USA.
- Taiwan: Components are made in High-Tech Facilities in Taiwan.

AquaCo Replacement Filters Bundle

USA Replacement Filters Bundle

REPLACEMENT FILTERS & BUNDLES

1st Service

\$110

2nd Service

\$195

3rd Service

\$195

\$120

\$210

\$210

Note: Filters are recommended to be replaced every year. However, not all filters are replaced at once. This is because each filter has a different life span.

Instead of having a separate faucet for filtered water, consider having a 3 Way Mixer to avoid drilling a hole through your stone/wood bench.

PULL OUT HOSE MIXER

\$525

-Chrome Pull Out -
478mm H x 333mm W

UPGRADE TO 3 WAY TAP

and discount \$30 from the original price.

High Loop 3 Way Mixers Spout

Note: In 3 Way Mixers, filtered water has an independent nozzle in the spout. Therefore, filtered water and unfiltered water never mix.

L-Shape 3 Way Mixers Spout

\$395

Matt Black

\$395

Stainless Steel

\$345

Chrome

Our NEW Chrome 3 Way Mixers feature an LED indicator that turns from blue to red when the filter needs replacing.

\$345

Chrome

\$395

Matt Black

3 Way mixers have a long lever for hot and cold, and a short lever for only filtered water.

In 3 Way Mixers there are separate tubes inside the faucet, so there's absolutely no mixing of sources.

Polypropylene Sediment Cartridges

Sediment filters are used as a primary filter to help to remove dirt, rust and sediment deposits, from water to help prevent or slow down the blockage of the secondary carbon filter.

Sediment filters range from less than 1 micron to about 70 microns but the most typically used are 5, 10, 20, 25, 30, 50. They would typically be used in a sequence with the biggest "pore" size or micron size being the first one the water goes through and the smallest the last.

AWC recommends sediment filter made from Polypropylene which is resistant to the growth of bacteria. They typically come in four sizes which are 9", 10" and 20" tall and 2.5" and 4.5" radius. They are typically referred to as either Slim Line or Big Blue.

Features & Benefits

- Three-layers structure cartridge, high contaminant holding capacity, long filter service life.
- 100%PP for compatibility with a wide range of process fluids.
- Micro-Denier melt-blown fiber, high removal ratings.
- Formed by thermal bond without use of any binders and adhesives
- Certificated by NSF42 and FDA CFR Title 21.

Model No.	FPP-LL-WX-ZZZ
Micron Rating	1,3,5,10,25,50,75,100 Micron
Material of Construction	100% melt-blown micron-denier PP fibre
Length	9", 10", 20", 30", 40" (251mm, 254mm, 508mm, 762mm, 1016mm)
Inner Diameter	28mm
Outer Diameter	2.5", 4.5" (63mm, 110mm)

Activated Carbon Block Filter Cartridges

Activated carbon filters are particularly effective at removing pollutants which create unpleasant taste, colour, and odour in water. These fast-acting filters can eliminate or reduce the levels of chlorine by-products, pesticides, herbicides, and other organic and industrial chemicals.

There are two forms of carbon in general use: granular and block. A Granular Carbon filter contains Carbon granules of carbon about the size of coarse sand while carbon block consists of finely powdered carbon compressed into a solid mass. Typically carbon filters are 5 micron but can be different.

To get the best use from any carbon filter, it should be kept free of sediment and heavy organic impurities if these are present in your water. Typically an inexpensive sediment filter used as a "pre filter" would be installed prior to the carbon unit to extend the life of the more expensive carbon cartridge.

Be aware that there are many cheap carbon filters on the market that originate from Asian countries where the carbon has been sourced from coal rather than coconut which give off dangerous carcinogens.

AWC only uses quality carbon sourced from activated coconut shell that has been washed numerous times.

Features & Benefits

- Quality assured carbon block cartridges
- No carbon fines and superior contaminant capacity.
- Enhanced dirt holding capacity for extended cartridge life.
- Reduces chlorine, bad taste and odour.
- Formed by thermal bond without use of any binders and adhesives
- Certificated by NSF42 and FDA CFR Title 21.

Filtration Process

Structure of the Carbon Block Filter

Key Specs include a 5 µm micron rating & removal of Chlorine, organ chemicals, unnatural tastes and od found in TAP water.

The Carbon Filters are made of fine **COCONUT SHELL** carbon that offers a much finer filtration suspended particle, chemicals, & dirt.

Alkahydrate Filter Cartridge

Alkalisng & Mineralising Water Filter

A healthy addition to your Water filter

The Aussie Water Coolers ALKAHYDRATE filter will provide you with enhanced water that is energised & mineralised. It raises the pH levels as well as producing antioxidant & oxygenating qualities. The filter also emits far-infrared rays which result in shorter cluster chains in the water molecules-increasing the bio-available response & oxygen absorption in the body.

Benefits of Drinking Alkalisng Water

- **Promotes better hydration:** Alkaline water has smaller molecular content making it easier for the body to absorb. The body can be hydrated more effectively by drinking alkaline water instead of everyday tap water.
- **Alkaline Water is an antioxidant:** Antioxidants help protect our bodies from free radicals that can cause various health problems. by drinking alkaline water you can help protect your body from diseases that can cause serious health issues.
- **Effectively balances the pH levels of the body:** Alkaline water helps by neutralizing the acid levels in the body. Although it works best as a preventive measure, those who already have an illness or disease can still drink alkaline water to speed up or at the very least assist the recovery process
- **Detox the Body:** A primary benefit of drinking alkaline water is its ability to wash away toxins that cause disease and illness. Drinking plenty of water is vital to good health
- **Boost the immune system:** Keeping our bodies in a more alkaline state will boost the immune system. This is a natural effect of neutralizing the free radicals and helping to cleanse the body of toxins.
- **Lose Weight:** Due to today's poor diets that consist of a lot of junk food, our bodies create more fat cells to neutralise the acid. This inevitably results in unwanted weight gain. Alkalisng water neutralises the acids in the body removing the need for our bodies to create the extra fat cells. Alkalisng water helps in weight loss because fat storage is reduced

Raise pH

The filter uses a series of different medias to effectively raise the pH level of your drinking water. Drinking alkaline water helps our body dissolve acid wastes - therefore making it easier for the body to dispose of them naturally. Since the accumulation of acid wastes is aging, the reduction of acid wastes is anti-aging!

Alkahydrate Filter Cartridge

Alkalising & Mineralising Water Filter

Add Ionic Organic Natural Materials

Introducing natural minerals such as Calcium, Magnesium, Potassium and more. These ionic minerals are absorbed by the body to improve strength and function of body processes.

Lowers ORP

Far-infrared rays emitted by the filter media result in structurally smaller clusters of water molecules, making it easier for your body to absorb meaning you can stay better hydrated. The AlkaHydrate filter significantly increases the negative ORP (Oxygen Reduction Potential) enabling it to decrease the oxidation of substances or cells thus serving as a potent anti-oxidant.

What is ORP?

ORP – Oxidation Reduction Potential - is the ability of water or any other media to oxidise (or more importantly – decrease the oxidation) of another substance or body. For example - air, with a positive ORP will oxidise metal thus causing corrosion or rust. Essentially, any substance that oxidises, disintegrates. Water with a negative ORP has the ability to decrease oxidation hence prolonging the life of a substance or in this case our physiology.

“Just about every condition I can think of, from arthritis to diabetes, to cancer - is associated with acidity.”

-Dr Robert Atkins

Reverse Osmosis System with Alkaline filter
